

## Check Valve

---

PRODUCT NAME:	Check Valve		
CATEGORY:	EPC		
FIELD/CLIENT:			
KRISTIN/	2004	TONOR	7 off
NORNE/	2005	TONOR	2 off refurbish
VILJE/	2006	TONOR	4 off refurbish

DESCRIPTION: The purpose of the Check Valves is to let compressed air and inhibited water escape during pigging and flooding. The Relief Valves also ensures that seawater is prevented from penetrating into the risers during installation.

HAVTROLL SCOPE: Concept development, detail engineering, testing, procurement and fabrication of Check Valve.
