Alliance Ground Surveillance (AGS) Program

The image reflects the Transatlantic Industrial Proposed Solution (TIPS) consortium's vision regarding NATO's future airborne ground surveillance system, planned for 2010.

- The Transatlantic Industrial Proposed Solution (TIPS) has selected Kongsberg as the industry focal point in Norway.
- The contract for the first 30 months phase, Design & Development, is planned for summer 2005.
- This web site provides insight:
 - For potential program participants of this multi-billion EUR program
 - Into this next generation system in general
