

K-FLEET PURCHASE

KONGSBERG

K-Fleet Purchase

ENSURE YOU HAVE THE RIGHT PARTS WHEN YOU NEED THEM

K-Fleet Purchase is a centralized purchasing system, which streamlines the procurement process for the entire fleet. It provides a two-way flow of data between the spare part inventory system onboard and the main office, ensuring a transparent procurement and supply process where maintaining the right quantity of spare parts is made easy.

EASY TO USE

With a user-friendly interface, K-Fleet Purchase provides a full overview of all vessels' inventory and easy management of spare parts through searchable order history, digital supplier catalogs, and formalized purchasing routines.

GREAT FLEXIBILITY

K-Fleet Purchase is part of the K-Fleet Management solutions. The modular approach ensures that it can be customized to meet the requirements of each vessel type and provides a range of features that supports the management of spare parts for all vessels in the fleet.

Some key features include:

- Overseeing the procurement process for all vessels in the fleet
- Management of spare parts for all vessels in the fleet
- Maintaining an adequate level of spare parts through summary reports
- Planning next year's expenses based on the number of spare parts needed
- ...see next page for more

KONGSBERG DIGITAL K-FLEET MANAGEMENT APPLICATIONS

K-Fleet is a comprehensive suite of applications designed to help shipping companies optimize their operations, reduce costs and ensure compliance with industry regulations.

With more than 40 years of experience, the K-Fleet software offers a wide variety of solutions to assist users in planned maintenance, inventory management, procurement, QSE, documentation, forms, certificates, voyage reporting, and fleet operations.

Order list

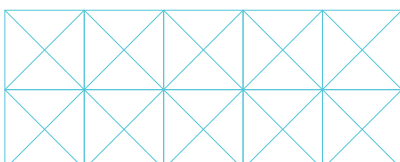

Overall, K-Fleet Purchase is a complete system for onboard spare parts handling that integrates with other parts of the K-Fleet software system, providing a foundation for making informed decisions at all levels of the organization.

BENEFITS

- Centralized purchasing tool: The K-Fleet Purchase system provides a centralized purchasing solution for the entire fleet, streamlining the process from requisition to delivery and cost control.
- Improved data quality: Integration with K-Fleet Maintenance and K-Fleet Budget onboard, as well as with the main office, ensures a two-way flow of data that improves the data quality and supports better decision-making.
- Flexibility: The modular design of K-Fleet Purchase allows it to be tailored to the requirements of each vessel type, providing great flexibility.
- Easy to use: The user-friendly interface of K-Fleet Purchase makes it quick and easy to manage for the operator.
- Comprehensive support: KONGSBERG provides sales, installation, commissioning, and service support for K-Fleet Purchase through its worldwide network.
