

SHOS - SAFER HOSE OPERATION SYSTEM

KONGSBERG

KONGSBERG DECK MACHINERY

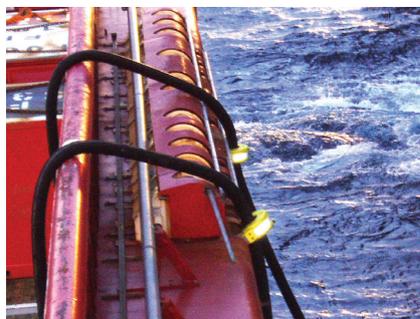

SHOS - Safer Hose Operation System (Patent pending)

Safer Hose Operation System (Patent pending) - initiative to make each day safer onboard a Offshore Support Vessel.

Kongsberg Maritime Deck Machinery, Brattvaag always endeavour to develop safer deck solutions onboard Offshore Support Vessels which can make a safer life for the crew on deck.

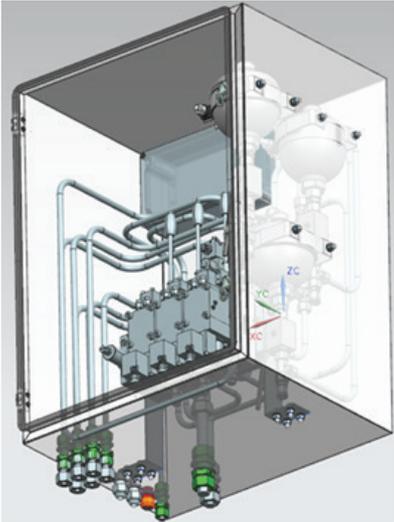

SAFER HOSE OPERATION SYSTEM - SHOS

- Catch & Secure cargo hose
- Remote Operated from Bridge
- AB's no longer in exposed zone during hose cargo-handling OSV/RIG
- Easy to install onboard vessels in operation

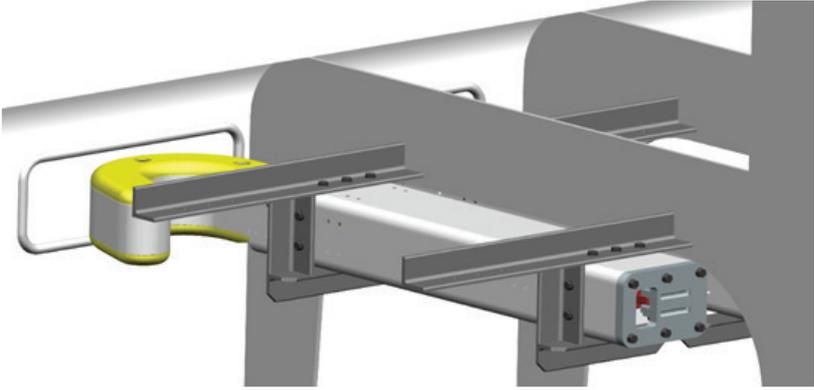

From SHOS test onboard Far Seeker
January 2013

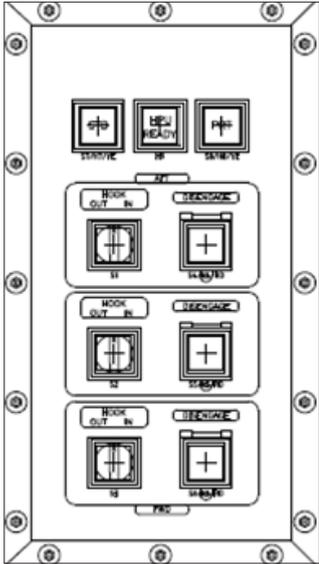

TYPICAL INSTALLATION ONBOARD A OFFSHORE
