

KONGSBERG

## Lifecycle management policy

Kongsberg Maritime (KM) has active lifecycle management for all its products and services, starting from their development and throughout their complete lifecycle.

Kongsberg Maritime (KM) continuously collaborates with its customers, collecting operational experience for product and service improvements. Kongsberg Maritime (KM) supports its customers, with product and service updates, focusing on performance, efficiency, safety, cybersecurity and sustainability. Kongsberg Maritime (KM) commits to providing spare parts and operational support according to the support levels defined for each lifecycle phase.

Kongsberg Maritime (KM) is a reliable partner, determined to proactively communicate changes in lifecycle phases and suggestions to maintenance, upgrades and transition to newer products and services.
