**Product discontinuation notice:  
Datachief C20 and K-Chief 500 Power Management Systems, which includes C1  
Combi & C3-GDCP modules**

Dear valued customer,

The intent of this letter is to inform you that Kongsberg Maritime are now announcing that power management (PMS) modules C1 and C3-GDCP have entered obsolete state in the life cycle phase. These DPUs were introduced in 2005 and the availability of components for producing new units is now non-existent. Hence, Kongsberg Maritime is no longer able to fully support systems that have these units with spare parts and services.

**Module:**

8100225 - C3-GDCP

8100181 - C1 Combi

**Affected system:**

- Datachief C20 – PMS generator control & protection
- K-chief 500 – PMS generator control & protection

Being aware of the difficult situation an obsolete system may cause, Kongsberg Maritime has developed replacement systems based on new technology. By using knowledge from an obsolete system, we offer replacement systems for installation at relatively short notice.

**Solution:**

Upgrade to K-chief & PMS to latest generation

Please contact KM Customer Support for more information on either mail:  
km.support@km.kongsberg.com or phone: +47 33032407.

Yours faithfully

Lars Alexander Inderøy
