Product discontinuation notice: Auto Chief C20 - Propulsion Control System

Dear valued customer,

The intent of this letter is to inform you that Kongsberg Maritime are now announcing that Auto Chief C20 have entered Obsolete life cycle phase. The system generation was introduced in 2004 and delivered until 2014. The availability of components for producing spare parts is now limited/non-existent. Hence, Kongsberg Maritime is no longer able to fully support systems with spare parts and services.

Affected system:

Auto Chief C20 Digital governor system, Remote control panels and Telegraph system.

Affected governor systems:

- KM Actuator 1325/1335
- Yaskawa Servo controller for DSU15
- MCW 151 Servo controller card for Yaskawa
- SEFA 160/800
- ELACT 0516

Being aware of the difficult situation an obsolete system may cause, Kongsberg Maritime has developed replacement systems based on new technology. By using knowledge from an obsolete system, we offer replacement systems for installation at relatively short notice.

Solution:

Upgrade to Auto Chief 600 Propulsion Control System

Please contact KM Customer Support for more information on either mail:
km.support@km.kongsberg.com or phone: +47 33032407.

Yours faithfully

Lars Alexander Inderøy
