

KONGSBERG

PÅL BRATLIE

Executive Vice President, Kongsberg
Defence & Aerospace

Pål E Bratlie is Executive Vice President of Land Systems, a division in Kongsberg Defence & Aerospace, a Business Area within Kongsberg Gruppen ASA (KONGSBERG).

KDA is Norway's leading supplier of defence and aerospace-related systems with more than 70% exports worldwide. The portfolio comprises products and systems for command and control, weapons guidance and surveillance, remote weapon stations and turrets, communications solutions, missiles, space products and services, and advanced composites and engineering products for the aircraft and helicopter market.

The Land Systems Division is the world leading supplier of remote controlled weapon stations and turrets for vehicle, stationary and naval applications, as well as high quality ruggedized equipment used in advanced tactical communications systems.

Prior to this assignment, Mr. Bratlie was Executive Vice President of the Protech Systems Division.

Throughout his career in KONGSBERG, Mr. Bratlie has held various positions with increasing responsibility. He started as a Project Engineer on simulation systems and he was Program Manager for VSHORAD Air Defence programs, before moving to the Missile Systems Division as Executive Vice President.

Mr. Bratlie graduated from University of California Santa Barbara, USA in 1996 and holds a Master of Science in Electrical Engineering.
