

KONGSBERG

Highlights

- Small and Medium Caliber Weapons
- Wireless Operation
- CUAS-ready with Collaborative Fire Control, Combat-Proven.
- Point and Vector Stabilization
- Unprecedented Accuracy
- Integrated Cleaning System

Remote Weapon System

Sea PROTECTOR RS4

Advanced Weapon System for Naval Operations.

Since the early 2000s, the PROTECTOR Remote Weapon System has played a vital role in enhancing operational safety and effectiveness.

With over 24,000 units delivered worldwide, KONGSBERG is a global leader in remote weapon technology - trusted by frontline operators for its reliability, precision, and cutting-edge innovation.

Proven Performance

Sea PROTECTOR RS4 is a Remote Weapon System designed specifically for maritime operations, building on the proven performance of the PROTECTOR family used by armed forces worldwide. With over 20 years of combat experience and continuous development in collaboration with military operators, it offers a mature yet advanced solution. The Sea PROTECTOR RS4 variant is optimized for naval platforms, providing reliable and precise capabilities for harbor defense and patrol missions. It integrates seamlessly with combat and bridge systems, ensuring enhanced protection and operational efficiency in demanding sea environments.

Quality and Reliability

KONGSBERG has a reputation for producing high-quality, dependable systems. Sea PROTECTOR RS4 is specifically engineered for the corrosive maritime environment, featuring an integrated cleaning system to remove sea spray and salt from sensor lenses - ensuring consistent sensor performance at sea.

Leading Technology

All PROTECTOR Weapons Systems, including Sea PROTECTOR RS4, enhance situational awareness and support manned-unmanned coordination through Collaborative Fire Control, tailored for naval operations. Sea PROTECTOR RS4 can be integrated with adjacent systems, such as:

- Combat and Bridge Systems
- Battlefield Management Systems (BMS)
- Sensor Systems and Defensive Systems (e.g. Active Protection or Laser Warning Systems)

CUAS

Sea PROTECTOR RS4, equipped with Ethernet-based Collaborative Fire Control and paired with radar sensors, provides an extremely accurate solution for countering small and medium-sized drones.

Versatility

Sea PROTECTOR RS4 offers a wide range of weapon options and can be integrated with various naval platforms and fixed installations - providing flexibility for diverse operational needs.

Customer Support

KONGSBERG offers comprehensive customer support, including training, maintenance, and technical assistance, ensuring users can maximize system capabilities throughout its lifecycle.

KONGSBERG

Sea PROTECTOR RS4 Technical Data

Weapons	Browning M2 12.7 mm
Day sight	VIS-95D Max
Thermal sight	Thales Dual Field of View
Laser Range Finder	Batram G3 with heater
Slew rate	Azimuth 360° unlimited range, 90° / second
Elevation	-20° to + 60°; 70° / second
Weight	From 195 kg excl. weapon and ammunition From 295 kg incl. weapon (M2) and 400 rounds (12,7mm)
Size	H: 830 mm; W: 890 mm; L: 962 mm
Other	ITAR-free (optional)

Qualified Integrations

Weapons:

- Browning M2 (12.7 mm)
- WKM-B (12.7 mm)
- MK19 (40 mm)
- MK47 (40 mm)
- H&K GMG (40 mm)
- M240 (7.62 mm)
- UKM-2000C (7.62 mm)
- M134 Minigun (7.62 mm)
- M249 (5.56 mm)
- Javelin Missiles
- Spike Missiles

Other

- Smoke Grenade Launchers
- Ballistic Protection Kit
