

KONGSBERG

ØYVIND KOLSET

Executive Vice President Missile Systems,
Kongsberg Defence & Aerospace AS

Øyvind Kolset is the Executive Vice President of Missile Systems for Kongsberg Defence & Aerospace, a business area within Kongsberg Gruppen ASA (KONGSBERG).

Kongsberg Defence & Aerospace is Norway's premier supplier of defence and aerospace-related systems and solutions. The company is a leading supplier of defence products and systems for command and control, surveillance, space, tactical communications, remote weapon stations and missiles systems. Kongsberg Defence & Aerospace also has extensive capabilities within advanced composite manufacturing and maintenance, repair and overhaul within the aircraft and helicopter market.

Kolset joined Kongsberg Defence & Aerospace in 1998 as a project engineer in the development team of the Naval Strike Missile. Throughout his career, he has held positions of increasing responsibility in various programs as principal engineer, specialist, technical lead and program director. Kolset has experience from both development and delivery of complex programs with customers ranging from Asia to USA.

Kolset graduated in 1994 from Buskerud University College, Norway, with a BSc in Electronics. After serving in the Norwegian Armed Forces, he continued his education at Norwegian University of Science and Technology (NTNU) where he received a MSc in Computer Architecture in 1998. He later specialized in management of complex development programs and contributed in lectures and master's theses on these topics in collaboration with NTNU.

Kolset is passionate about technology and development of innovative solutions for defense products and applications. He has devoted his entire career to the Missile Systems division, leading engineers to develop highend products operating in the most demanding environments.
