Subject: Product discontinuation notice – AutoChief 2 and 3

Dear valued customer,

The intent of this letter is to inform you of the Kongsberg Maritime decision to limit support of the AutoChief 2 and 3 (AC2 and AC3) which were delivered until 1994. Spare parts- and service support Kongsberg Maritime are now announcing these parts obsolete due to no availability in the market:

Ø AutoChief 2 and 3

Ø DGS 8800 Pneumatic Actuator

Kongsberg Maritime AS still offers very limited HW service for AC3. We may be able to carry out repair provided the faulty part(s) is repairable, but replacement parts are no longer available.

Being aware of the difficult situation an obsolete system may cause, Kongsberg Maritime has developed optional upgrade solutions based on new technology. By using the knowledge from an obsolete system, we offer significant extended life-cycle packages by upgrading parts of or the whole system to a newer product technology platform.

Option AC2 and for AC3 with DGS 8800

Ø Upgrade of complete system to AutoChief 600

Please contact Customer Support for more information on either mail: km.support@kongsberg.com or phone: +47 33032407.

Yours faithfully

Thomas Kristiansen
