

KONGSBERG

## Highlights

- Small and Medium Caliber Weapons, including ATGM
- Wireless Operation
- CUAS-Ready with Collaborative Fire Control, Combat-Proven.
- Point and Vector Stabilization
- Unprecedented Accuracy
- Operational Readiness Rate of 99%

## Remote Weapon System

# PROTECTOR RS4

## The World's Most Deployed and Trusted Weapon System

Since the early 2000s, the PROTECTOR Remote Weapon System has played a vital role in enhancing operational safety and effectiveness.

With more than 24,000 units delivered worldwide, KONGSBERG is a global leader in remote weapon technology - trusted by frontline operators for its reliability, precision, and cutting-edge innovation.

### Proven Performance

The PROTECTOR Weapon Systems has been adopted by an unmatched number of Armed Forces worldwide, demonstrating its effectiveness and reliability in real-world operations for over 20 years.

Drawing on millions of hours of operational experience in combat zones, combined with close collaboration with operators seeking continuous system improvements, we offer a mature yet state-of-the-art product.

### Leading Technology

All PROTECTOR Weapons Systems, including the RS4, enhance situational awareness and enable operation in a manned-unmanned battlefield through our Collaborative Fire Control system.

The RS4 can be integrated with adjacent systems, such as:

- Battlefield Management Systems (BMS)
- Weapon Systems, enabling two-way Slew-to-Cue

- Sensor Systems
- Defensive Systems (e.g. Active Protection or Laser Warning Systems)
- Unmanned Vehicles or Drones (UGV/UAV/UAS)

### CUAS

All PROTECTOR systems, including the MCT, can be fully configured with CUAS capabilities and provide a highly accurate solution for countering small- and medium-sized drones. This capability is enabled through integration of radars and other sensors and effectors into the PROTECTOR fire control system. PROTECTOR CUAS is currently fielded in both naval and land-based applications, including on unmanned platforms.

### Versatility

The PROTECTOR RS4 offers a wide range of weapon options and can be integrated with various platforms, including vehicles, naval vessels, and fixed installations - providing flexibility for diverse operational needs.

### Customer Support

KONGSBERG offers comprehensive customer support, including training, maintenance, and technical assistance, ensuring users can maximize system capabilities throughout its lifecycle.

KONGSBERG

## PROTECTOR RS4 Technical Data

Weapons	Browning M2 12.7 mm
Day sight	VIS-95D Max
Thermal sight	Thales Dual Field of View
Laser Range Finder	Batram G3 with heater
Slew rate	Azimuth 360° unlimited range, 90° / second
Elevation	-20° to + 60°; 70° / second
Weight	From 195 kg excl. weapon and ammunition From 295 kg incl. weapon (M2) and 400 rounds (12,7mm)
Size	H: 830 mm; W: 890 mm; L: 962 mm
Other	ITAR-free (optional)

### Weapon integrations:

- Browning M2 (12.7 mm)
- WKM-B (12.7 mm)
- MK19 (40 mm)
- MK47 (40 mm)
- H&K GMG (40 mm)
- M240 (7.62 mm)
- UKM-2000C (7.62 mm)
- M134 Minigun (7.62 mm)
- M249 (5.56 mm)
- Javelin Missiles
- Spike Missiles

### Other

- Smoke Grenade Launchers
- Ballistic Protection Kit
- Multi User Configuration
